Research Supported by:

The 2014 Annual Report on the State of Philanthropy in Montenegro is part of a broader initiative to promote and stimulate philanthropy in Bosnia and Herzegovina and the region carried out by the Trag Foundation and Catalyst Balkans. The underlying research and this publication were created by Catalyst Balkans in cooperation with Trag Foundation, and with the generous support of the C.S. Mott Foundation, Balkan Trust for Democracy (BTD) and United States Agency for International Development (USAID).

Given that the value of the donation in Montenegro was reported in only 25.3% of the instances, estimation about the total amount donated is made by extrapolation based on the known data. For more information, please find the full report at:
